Objective

Aspiring software engineer seeking a challenging position to apply my technical skills in HTML, CSS, JSP, Servlet, MySQL, Java, Spring, and Hibernate to develop efficient and scalable software solutions that contribute to organizational success.

Professional Experience

- **N-Intelligenz**   -
  Software Engineer Trainee
  • Developed web applications using HTML, CSS, JavaScript for frontend.
  • Built RESTful APIs with Spring Boot for backend functionalities.
  • Integrated Hibernate ORM for efficient database interactions.
  • Utilized Eclipse IDE and MySQL Workbench for development and testing.

- **Internship Studio**   -
  Website design
  • Designed and developed an e-commerce website using HTML and CSS.
  • Enhanced frontend usability and responsiveness through practical development experience.

Academic Qualification

- **Trinity College of Engineering and Research, Pune**
  Bachelor of Engineering (B.E)- Information Technology   2020- 2024
  CGPA: 7.58

- **Trinity Junior College**
  Higher Secondary Education (HSC)   2018- 2020
  Percentage: 52%

- **Utkarsha English Medium School**
  Secondary School Certificate (SSC)   2017- 2018
  Percentage: 81%

Projects

- **QuickBus – Online Bus Ticket Booking System**

  Developed a web-based bus ticket booking system for intracity and intercity travel.
  • Built the frontend using HTML, CSS, JavaScript for an interactive UI.
  • Implemented the backend using Spring Boot, Hibernate, and MySQL for secure and scalable data management.
  • Key features: User authentication, booking management, and bus search functionality.
  • Tools Used: Eclipse IDE, MySQL Workbench

- **Limbic Mate – Emotion-based Recommendation System**

  Developed a full-stack web application for personalized recommendations based on emotion detection and user preferences.
  • Used AngularJS for the frontend and Node.js for backend services.
  • Key modules: Emotion Detection, Recommendation Engine, Chatroom, and Personal Diary.
  • Integrated Firebase for real-time database and user authentication.
  • Implemented login, registration, and dashboard functionalities.
  • Tools & Tech: AngularJS, Node.js, Firebase, VS Code | OS: Windows

- **Cafe Management system**

  Created a management system to streamline cafe operations and customer handling.
  • Enabled fast order processing and efficient record-keeping of customer details.
  • Data stored in MySQL for easy access and future use.
  • Designed to reduce manpower and improve order accuracy.

Technical Skills

- Programming skills: C, C++, Java.

- Web Technologies: HTML, CSS, JSP, Servlet.

- Database: Oracle SQL

- Computer Fundamentals: Operating System.

- Tools/IDE: Eclipse IDE, Oracle.
